The Bird Nerd Game

This game is really fun! Every bird in the book counts points. Rare birds count more than common ones. In this checklist, you can see the total points for each bird. Mark the ones you've seen, and count up your total. It works like this:

- Common birds: 1 point
- Uncommon birds: 2 points
- Rare birds: 3 points

Top 20: 20 points

Endemics: Double points

Bonus birds: add 1 point

There are 722 species on this list. The maximum possible Bird Nerd score is 2,000.
