The Bird Nerd Game

This game is really fun! Every bird in the book counts points. Rare birds count more than common ones. For some special species you also get bonus points. In this checklist, you can see the total points for each bird. Mark the ones you've seen, and count up your total. The points work like this:

- Common birds: 1 point
- Uncommon birds: 2 points
- Rare birds: 3 points
- Bonus birds: add 1 point
- Endemics: Double points
- Top 20: 20 points

There are 722 species on this list. The max total Bird Nerd points is 2,000. Good luck!
