ADDITIONAL SPECIES/NOTES

The Bird Nerd Game

This game is really fun! Every bird in the book counts points. Rare birds count more than common ones. For country specials or endemics you get double points. In this checklist, you can see the total points for each bird. Mark the ones you've seen, and count up your total. The points work like this:

- Common birds: 1 point
- Uncommon birds: 2 points
- Rare birds: 3 points
- Country specials: double points
- Trophy Birds: 20 points

You also get 20 points for any of the rare vagrants on p. 478 of the book, and 30 for a brand new species!
